

# ABHISHEK VITTHAL MANE

21<sup>ST</sup> SEP 2020 | PUNE

(+91) 8626 07 3884 | abhishekmane@outlook.in | <https://abhishek-mane.github.io>

## SKILLS

Python | NodeJS

Docker | Docker Compose

MongoDB

AWS : CFN | Lambda | Config

GCP : Functions | Reports

Apache Hadoop | Spark | SQL

## EDUCATION

BE

D Y PATIL ENG COLLEGE

JUNE 2012 - MAY 2016

## MORE PROJECTS

→ IBM Cloud Orchestrator  
NOV 2016 - JUL 2017

→ Air Quality Monitoring  
OCT 2017 - DEC 2017

→ Statistic Reporting  
OCT 2017 - DEC 2017

## EXPERIENCE | 4 YEARS

**GSLab / Senior Software Developer**

DEC 2018 - PRESENT | PUNE

**GSLab / Software Developer**

AUG 2016 - NOV 2018 | PUNE

## PROJECTS

**Enterprise CAM / JAN 2020 - PRESENT**

Cost and Asset Management gives hybrid cloud users real-time visibility and actionable insight into their cloud investments.

→ NodeJS - MongoDB - Aggregation Pipeline - RabbitMQ

**Cost and Asset Management (CAM) / JAN 2018 - DEC 2019**

Cost and Asset Management gives hybrid cloud users real-time visibility and actionable insight into their cloud investments.

→ Python - Pandas - Docker - Spark - GCP

**Docker Compose for CAM (CLI Tool) / JAN 2018 - MAR 2018**

A method designed for developers to set up their dev environments and test the local changes. Advantages of this over the kubernetes deployment are, on the fly code changes, DNS proxy server etc.

→ Docker - Docker Compose - Python

**Air Quality Monitoring / OCT 2017 - DEC 2017**

Central Air Quality Monitoring dashboard which will help people of the city to identify how affected the particular area is with dangerous pollutants.

→ NodeJS - CouchDB - Raspberry Pi - IBM IoT Platform
